Hello 😊

I am Corona!

I am a virus and I love everyone!

My real name is Coronavirus

© Lies Scaut
I travel all over the world

And I want to get to know everyone!
You don’t see me but I am there 😊
I fly out of someone’s nose or jump from hand to hand

That’s how I make everyone sick
When I am in someone’s body, I cause a fever, cough and difficulty breathing
I love everyone, young and old

But nobody likes me 😞
Luckily for you, I won’t stay long

Most people can fight me successfully and then I leave again!
If you don’t want me to visit you, there are plenty of things you can do by yourself

Stay at home!
Stay at home

So I can’t get in!

Wash your hands

With soap and water!

Throw paper tissues
into the bin!

sneeze and cough in your elbow!

The more everyone tries to do their best, the fewer friends I can make

© Lies Scaut
Doctors do everything they can to destroy me as quickly as possible

But I will stay for a while...
If you are scared of me, tell your parents

They will do everything to take good care of you!
And then I will disappear as soon as possible 😊

Goodbye!
How did you feel when you heard about me?
Colorize the face, you can choose more than one:

Happy                      Scared                       Angry

Sad                       Curious                      Confused

© Lies Scaut
What do you think about me?
Write it down in the clouds:
What questions do you have about me?
Write it down in the question marks:
Why are you afraid of me?
Write it down in the ghosts:
Why are you mad at me?
Write it down in the lightnings:
What do you want to say to me?
Write it down in the speech bubbles:
Make a drawing of me here:
Come up with all kinds of tools that can help you when you are afraid and put them in your ‘First Aid For Anxiety’-box. You can write it down in this box or you can take a shoebox and put everything in there:
Come up with all kinds of tools that can help you when you are angry and put them in your ‘First Aid For Anger’-box. You can write it down in this box or you can take a shoebox and put everything in there:
Come up with all kinds of tools that can help you when you are sad and put them in your ‘First Aid For Sadness’-box. You can write it down in this box or you can take a shoebox and put everything in there:
Think of all kinds of things that make you happy 😊 Write them down, in and around the smiley:
The end
